

COMPANY PROFILE

G.W. Becker, Inc. is a full service, single source, provider of choice for quality overhead crane products & solutions. Family owned since 1980, we have grown from a local overhead crane parts supplier to a recognized industry leader offering a full spectrum of overhead crane related products and services throughout North America. We provide specialized expertise and long-term planning solutions for the unique challenges of maintaining overhead crane equipment for manufacturing facilities. We have positioned our company to offer application assistance, custom design engineering and manufacturing of overhead crane products with our customer's needs first and foremost. Our breadth of capabilities provides efficient and cost effective solutions for all overhead material handling requirements.

President

MISSION STATEMENT

To become an extension of our customers' management team in the area of Cranes/ Overhead Material Handling Systems, providing premium products and quality service.

INDUSTRIES SERVED

- Aeronautical
- Aluminum
- Automotive
- Bearing
- Chemical
- Concrete
- Construction
- Defense
- Fabrication
- Food
- Forging
- Foundries
- Glass
- Heavy Machinery
- Machining
- Mining
- Oil & Gas
- Paper
- Plastic
- Pipe
- Rail
- Specialty Metals
- Steel – Primary Producers
- Steel – Secondary Processors
- Tool & Die
- Trucking
- Tube
- Utilities
- Warehousing
- Water Treatment

“Being a heavy metals manufacturer in Western Pennsylvania, we employ over 60 bridge type cranes from 5 to 75 ton and an additional 200 plus jib cranes in our manufacturing processes. Throughout the years we have used several crane companies for service repairs and inspections as well as newly constructed units. G.W. Becker, Inc. was recently chosen over competitors to conduct our annual inspections and repairs on all of our cranes based on a long-term contract. They have also been awarded a contract to build a new 20 Ton unit for our site. We have found G.W. Becker, Inc., to be the most price competitive, responsive and cooperative company within the crane industries servicing our area. I would highly recommend them to all who have a need for services or for new replacement units.”

George Y.- Facilities Manager

CRANES AND HOISTS

- Custom Cranes and Material Handling Equipment for Most Applications
 - Full Automation
 - Hazardous Duty
- Standard Pre-Engineered Industrial Cranes
- Crane and Hoist Types
 - Double, Single & Mono-box Girder
 - Gantry
 - Patented Track System
 - Stacker
 - Jib
 - Monorail
 - Workstation
- Full Line of Industrial Hoists
 - Wire Rope & Chain
 - Electric, Hand, Pneumatic & Lever

ENGINEERING

- Mechanical, Structural, and Electrical Expertise
- Machine Design - Including Gear Design
- Structural Engineering, Design and Analysis
- Asset Management
- AC and DC Controls Including Automated Systems
- Software Systems Utilized:
 - Autodesk AutoCAD
 - Autodesk Inventor Simulation Suite
 - STAAD Pro Structural Analysis

SERVICE

- Inspections
 - Periodic
 - Frequent
- Preventive Maintenance
- Runway Surveys and Inspections
- Non-Destructive Hook Testing
- Installation/Commissioning/Load Testing
- Teardown and Evaluations
- Component Rebuilds
- On-site Service Abilities
- Product Service Abilities
 - Factory Authorized Warranty Repairs
 - Hoist Re-Certification
- Outage Service Abilities
- Emergency Service Abilities
- Retrofit, Modernizations and Upgrades
- Site Contracts

PARTS

- Parts Available for all Makes and Models
- Authorized Parts Distributor of CM, Shaw-Box, YALE, Budgit, Coffing, R&M, ACCO, Detroit, Gorbelt, Cleveland Tramrail, Louden, & More
- Motors
- Motor Control
 - AC, DC and Variable Frequency
- Gearboxes and Drives
- Master Switches
- Runway Electrification & Festoon Systems
- Pushbutton Stations
- Radio Controls
- Limit Switches
- Lower Blocks
- Hooks
- Sheaves
- Brakes
- Custom Brake Wheels
- Wheels and Wheel Assemblies
- Reverse Engineering
- Below-the-Hook Devices

TRAINING

- Overhead Crane Operator
- Overhead Crane Operator Train the Trainer
 - Complete Lesson Plan
 - Training Materials
- Overhead Crane Frequent Inspection and PM

QUALITY ASSURANCE

- Welding Design and Procedure per AWS D14.1
- Welders Certified per AWS D1.1
- Non-Destructive Testing (NDT)
- Metallurgy Evaluation
- Hardness Testing
- Laser Alignment Systems
- Materials and Processes Certification
- Formal Non-Conforming Materials Identification and Disposition System

MANUFACTURING

- 40,000 SF Facility – 60 Ton Lifting Capacity
- Advanced Material Preparation
- Certified Welders per AWS D1.1
- Machine Shop with CNC Capability
- Rebuilds and Modifications

Your Single Source Provider for Overhead Cranes, Parts, Service, Inspections, Training & Engineering
